CYBER THREAT INTELLIGENCE AS A SERVICE

Attackers See Targets Differently Than Targets See Themselves

*The cyber threat landscape is continuing to evolve at a rapid rate.
Actionable Intelligence is needed to make decisions*

About Us

A veteran owned company with over 100 years of combined cyber intelligence experience in government and a collection of the world's largest and heavily regulated global Fortune 500 firms.

Our mission is to provide innovative, decision-making capabilities that enable our clients to measurably improve their cybersecurity operations and reduce risk to their business goals.

About Our Services

CyberSix's Cyber Threat Intelligence as a Service (CTIaaS) solution strengthens your organization's ability to be proactive in your strategic decisioning by leveraging our custom fit actionable intelligence research and reporting.

Our CTIaaS Approach includes:

- Knowing our client's threat environment & attack surfaces
- Continuous enhancements through initial onboarding and cybernetic feedback loop processes
- Targeted consistent analysis and reporting with both technical and risk remediation guidance

Our Turnkey CTIaaS Solution provides:

- Actionable Intelligence designed for both business leaders and technical teams
- In-depth Analytics to provide prioritization of imminent threats
- Consistent Reporting to keep current with your organization's cyber threat landscape

RECON

Learn what information of yours is available to an attacker

WEAPONIZATION

See where an attacker perceives your organization's exploits are

DELIVERY

Identify users that could unknowingly enable or facilitate the attack

EXPLOITATION

Which systems enable attacker's movement into and through your network
